## IMPORTANT SITE INFORMATION:

- 1 **All dogs MUST kept on leads at ALL times**, unless being “worked” to avoid any disturbance to the wildlife on site.
- 2 **Clear up after your dog** – when committee members went round the venue last year clearing up, they found that not everyone had done this.
- 3 Please respect that the site is densely wooded with pine trees, and poses a fire risk unless care is taken to safely extinguish and dispose of sources of fire – cigarettes and barbecues in particular. In this context, a review shall be undertaken nearer the time as to whether BBQ’s will be accepted on site – if conditions prior to the event have been hot and dry and pose a fire risk, then BBQs shall not be accepted by the Camp Site.
- 4 All caravanners and mobile home campers are encouraged to use their own toilet and shower facilities, to avoid compromising the limited facilities available on site. There is a manhole for the safe emptying of waste water and toilette cassette units. **NOTE:** The showers are operated by £1 coins, please ensure you bring some.
- 5 Please do not use devices which require high electrical power as we have exceeded the sites normal camping provision with their agreement, but on the basis we moderate our use of electrical appliances to avoid tripping their supplies.
- 6 All rubbish to be sorted into the available containers, for disposal off site. Refuse removal is being provided this year - as a part of the booking fee charge.
- 7 Note that there is no permanent lighting on site – please bring torches with you for walks after dark.
- 8 Please keep noise levels to reasonable levels to avoid undue disturbance to the local residents and wildlife
- 9 No swimming in the lakes unless participating in one of the Supervised Activities.
